# Gorse Hall Primary School

# Feedback Policy 2019-2020

#### Introduction

Our policy is underpinned by these crucial and current elements:

- 1. Evidence from teachers and support staff about 'what works'
- 2. Evidence from the respected sources such as the Education Endowment Foundation, and the work of Shirley Clarke and John Hattie.
- 3. Recommendations from the Marking Policy Review Group (March 2016) on reducing teacher workload
- 4. A 'Growth Mindset' culture where mistakes are seen as an essential and valuable part of the learning process.

## **Core Principles**

- The purpose of feedback is to further children's learning
- It is an integral part of the learning process and time must be given to it
- It provides key assessment information to inform planning
- The impact of feedback diminishes over time therefore feedback within a lesson is more effective than comments provided at a later date
- Any written marking must be meaningful, manageable and motivating
- Feedback should empower pupils to correct/improve their own work (rather than the adult doing it for them)
- Staff should be free to select the most suitable form of feedback that takes into account: the subject content; age and experience of learners; context of the learning
- It is important to note here that evidence of feedback is incidental to the process; we do not provide additional evidence for external verification.

#### **Staff Guidance**

- Feedback should only focus on the learning which has been undertaken in the lesson (misconceptions and challenge activities can be addressed in subsequent sessions)
- Every piece of work requires some form of feedback (immediate verbal feedback is the most powerful)
- Pupils should identify whether the work has been done I independently, P with a peer, S support, G guided
- No work needs intialling or dating. No use of WWW or EBI.
- Supply teachers must stamp work with 'Marked by Supply'.

#### Teacher verbal feedback

- Should be the primary source of feedback
- Should directly link to the WALT and be positive as well as constructive
- Should recognise effort as well as achievement

#### Self assessment

- Green Pen and identified with Self
- Distinguish between proof reading (finding spelling and grammatical errors) and editing (changing words and phrases for effect)
- Children should proof-read their own work as a matter of routine, before an adult or partner looks at it
- Children should be trained to edit their work, making improvements in the lesson. This can then be done with a partner as well, if appropriate.
- In other areas of the curriculum, they may check their answers with a partner, use an answer sheet, a calculator, or be given verbal answers.

#### Peer assessment

- Green Pen and identified with Peer
- Should be focused on the WALT
- Children should be slowly trained to do following clear guidance from the teacher
- Expect greater precision as children do this more / get older
- In other areas of the curriculum, they may check answers with a partner, use an answer sheet, a calculator, or be given verbal answers.

#### Teacher written feedback

- Red pen (in line with handwriting policy)
- Should be simple, legible and easily understood
- Should be specific, meaningful and clearly linked to the WALT
- Most effective when given with the learner present
- May be written as a modelled example
- The learner shows evidence of improvement following written feedback
- Mistakes are identified by a dot at the start of the line/sentence where the mistake is, rather than the specific mistake (teacher judgement must be used)
- Can include motivational stickers/stamps (use sparingly for impact)
- (NB: Too much teacher marking suggests an over dependency on the teacher)

### **Core Practice**

Feedback in a school setting generally fits into 3 timescales, in order of decreasing importance:

- 1. Immediate feedback at the point of teaching
- 2. Summary feedback at the end of a lesson/task
- 3. Review feedback away from the point of teaching (including written comments)

Туре	What it looks like	Evidence
Immediate	<ul> <li>Teacher gathers feedback from teaching, e.g. mini-whiteboards, questioning</li> <li>Takes place in the lesson</li> <li>Usually given verbally</li> <li>May involve further modelling and looking at other pupils' work</li> <li>Can be given to individuals, groups or whole class</li> <li>Requires immediate action by the learner</li> </ul>	<ul> <li>Lesson observation / Learning walks</li> <li>There may be evidence of written feedback</li> <li>Improvements evident in books through editing or further working</li> <li>Progress evident over time</li> <li>Child chats</li> </ul>
Summary	<ul> <li>Takes place at the end of the lesson / activity</li> <li>Involves whole groups or classes</li> <li>May involve self or peer assessment against set criteria</li> <li>Guides future plans / actions</li> </ul>	<ul> <li>Lesson observations / learning walks</li> <li>Books show subsequent work is accurately matched to pupils' needs</li> <li>Self and peer assessment grids</li> <li>Child chats</li> </ul>
Review	<ul> <li>Takes place after the lesson / away from point of teaching</li> <li>May involve written comments / annotations for pupils to respond to</li> <li>Guides future plans including amendments to the teaching sequence</li> <li>Leads to individual or group actions possibly including specific targets for improvement</li> </ul>	<ul> <li>Verbal or written comments which lead to improvements</li> <li>Pupil response in books in green pen indicate action following feedback</li> <li>Child chats</li> </ul>

# <u>Appendix 'A': General Information / Strategies (to be added to during the implementation process)</u>

Difference between mistake and error?

Need to make explicit to parents

Need to make explicit to pupils
