Introduction

At Gorse Hall Primary and Nursery school the children are always actively involved in high quality Communication and Language activities.

In order to enhance children's learning further we take part in a phonics teaching programme called 'Letters and Sounds'. This is designed to develop children's listening skills, vocabulary, phonological awareness, oral blending and segmenting of words. All of these factors support children in their reading and writing.

This booklet is aimed at giving you the information about the first phase of 'Letters and Sounds' and the best way you can support your child at home.

The structure of the programme - Phase 1

In this phase your children will learn to:

- Have fun with words
- Listen carefully
- Develop their vocabulary
- Speak confidently to adults and other children
- Tune into sounds
- Understand that the spoken words are made up of different sounds

Phase 1 of the programme consists of seven interlinking parts that help the children tune into sounds these are:

1. Environmental sounds
2. Instrumental sounds
3. Body Percussion
4. Rhythm and Rhyme
5. Alliteration (words that begin with the same sound)
6. Voice Sounds
7. Oral blending and segmenting

You can help your child to develop in each of these area by trying some of the ideas which follow, Remember to keep it fun and do not get concerned if your child does not immediately grasps some of the activities. These ideas will also give you an insight into the sorts of activities your child will be involved with in Nursery.

1. Environmental Sounds

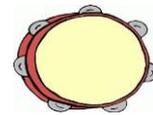

Ways to support your child at home

- Go on a listening walk -when on a walk make a point of listening to different sounds, i.e. cars revving their engines, dogs barking, birds tweeting, aeroplanes in the sky etc. When at home talk about and try and remember all the different sounds you heard.
- Play sound lotto - commercial sound lotto games can be purchased from many toy shops.
- Make and explore sounds using a range of props such as running a stick along a fence, tapping a pan lid. Encourage your child to talk about and describe the sounds, can they make the sounds themselves?

2. Instrumental Sounds

Ways to support your child at home

- Make your own musical instruments using cardboard boxes, yoghurt pots, elastic bands, dried peas, pasta etc. Shake these loudly or softly. Play guess what is inside this instrument and describe the sounds they can hear.
- Listen to a range of music with your child from pop to classical. Encourage your child to move in response to the variety of musical styles and moods. Talk about the music, helping them to extend their descriptive vocabulary.

3. Body Percussion

Ways to support your child at home

- Sing some action rhymes such as 'wind the bobbin up', 'Incy Wincy Spider' etc. Play Nursery Rhymes CD's and clap along with familiar rhymes or learn new ones.
- Try different types of claps, clap your hands softly/ fast / loudly.
- Make a pattern and ask your children to copy it i.e. stamp your feet, click your fingers / tongue, tap fingers etc.

4. Rhythm and Rhyme

Ways to support your child at home

- Read poems of rhyming stories, sing songs and nursery rhymes as often as you can. Try using gestures (acting out the story / rhyme) tap regular beats and pause to emphasise the rhythm of the piece and the words that rhyme.
- Try out some rhythmic chanting of your own such as 'two, four, six, eight hurry up or we will be late' or 'bip bop boo, who are you?' etc.

5. Alliteration

Ways to support your child at home

- Alliteration is as lot of fun to play with. Your child's name can be a good place to start i.e. Harry has hundreds of happy hamsters, Will watched wibbly wobbly webs, Freddy finds five funny frogs. Encourage other family members to have a go or make us sentences about themselves. Such as Mummy makes marvellous marsh mellows, Grandad grows green grass.
- Emphasise all alliteration in songs and stories e.g. 'Peter piper picked a peck of pickled pepper'
- Play about with familiar stories such as 'Old MacDonald had some sheep, shoes, shorts with a sh sh' here etc
- Play games to identify the odd one out in a spoken list e.g. cat, cup, boy, car.

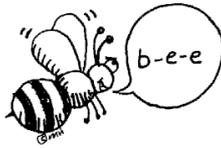

6. Voice Sounds

Ways to support your child at home

- Say words in different ways (fast, slow, high, low, using funny voices)
- Sing songs using only one sound e.g. 'la, la, la, la, and ask your child to guess the song.
- Make and exaggerate voices for characters when reading stories.
- Read or tell sound stories - these encourage sound making as you read the story.

7. Oral Blending and Segmenting

Ways to support your child at home

At this stage this is all oral (spoken). In the early stages the emphasis is on helping children to hear separate words and create spoken sounds. It is important we use letter sounds and not names e.g. for the word **cat** to say c-a-t and not **C** (see) - **A** (ai) - **T** (tee)

- Sound talk - try breaking down simple words when giving instructions or asking questions such as "Can you find your h-a-t (hat)?" "s-i-t (sit) on your s-ea-t (seat)" etc. It is important to say the sounds in order through the word and then the whole word too.
- **Blending** - this is a vital skill for later reading, the separate sounds (phonemes) of the word are spoken aloud, in order and are then merged together into the whole word. This merging together is called blending. For example say the sounds d-o-g and encourage your child to say the word 'dog' back to you.
- **Segmenting** - this is a vital skill needed for later spelling. The whole word is spoken aloud, then broken up into its separate sounds (phonemes) in order. For example say the word 'dog' and then encourage your child to break down and say d-o-g.

We hope that you find this information useful and for you to understand the type of learning that is planned in the area of 'Communication and Language'.

The early phases of the Letter and sounds programme for the foundation for the development of early reading and writing skills. These skills are built on as children move through the phases in Reception and Key Stage 1 classes.
