2. WE Feedback- We Walk for Water – Thursday 26th April
3. Key –Hole Garden Veg Patch - Planting
4. Date of next meeting Summer 2

WE Feedback- We Walk for Water – Thursday 26th April

A magnificent total of £183 was raised on this sunny afternoon.- Well done!

Children (especially girls) in parts of Africa can only attend school if they have access to clean water. It frees girls from the daily task of collecting water for their families, and prevents waterborne illnesses that make children unwell and unable to go to school. So we have raised money for WE charity to work with communities to provide sustainable clean water solutions like wells and hand pumps.

As part of the day we walked a mile around our playground carrying water containers and wearing something blue.

Morwenna from WE charity London supported us in our challenge and we look forward to seeing her again soon.

Well done to the Africa Committee for marshalling this event

Key –Hole Garden/ Veg Patch - Planting

It was agreed that reception class would plant out the vegetable patch with carrots, beetroot, radish, onions and green beans. We will send out a letter for requests for seedlings.

Date of next meeting Summer 2
