

# Maths Support for parents

Some parents have asked for some videos/workshops so they can best support their child's learning in Maths. As we follow 'White Rose Maths' scheme at Gorse Hall, a good starting point would be to share the parent support videos that have already produced. We realise that not everyone can attend in person workshops due to other commitments and a video can be re-watched again at any point. The following links will take you directly to the website page. The videos show how the concepts for different areas in maths are developed.

## Guidance for parents: White Rose Maths Scheme of work

[Advice and guidance for parents | White Rose Maths](#)

## Videos of support – Maths with Michael

There are sections on different strands of maths e.g. addition, multiplication, fractions. Michael talks about /show different strategies and resources that we use in school.

<https://whiterosemaths.com/maths-with-michael>

## Workbooks to complete at home

From year 1 to year 6 there are workbooks for you to download free of charge and to complete as you wish. Each block refers to a 'block' of learning e.g. addition. **Just**

**remember to click the arrows as there are workbooks for each term.**

[Parent resources | Maths workbooks | White Rose Maths](#)

**Once you have viewed the resources please click the link for the questionnaire so we can find out how useful they were and if further support is still needed.**

**<https://forms.office.com/e/49vEFZftpp>**

Many thanks for reading/watching and we hope you find them useful.
